Most Successful Cookery Exhibitor- Primary School, \$10 Voucher sponsored by **Dorrigo Bakery** + Ribbon

The following recipe is compulsory for all entrants in class 10000, AgShows NSW Rich Fruit Cake

INGREDIENTS:

250g sultanas

250 g chopped raisins

250 g currants

125 g chopped mixed peel

90 g chopped red glace cherries

90 g chopped blanched almonds

1/3 cup sherry or brandy

250 g plain flour

60 g self-raising flour

1/4 teaspoon grated nutmeg

1/2 teaspoon ground ginger

1/2 teaspoon ground cloves

250g butter

250g soft brown sugar

½ teaspoon lemon essence OR finely grated lemon rind

½ teaspoon almond essence

½ teaspoon vanilla essence

4 large eggs.

RECOMMENDED METHOD:

Mix together all the fruits and nuts and sprinkle with the sherry or brandy. Cover and leave for at least 1 hour, but preferably overnight. Sift together the flours and spices. Cream together the butter and sugar with the essences. Add the eggs one at a time, beating well after, each addition, then alternately add the fruit and flour mixtures. Mix thoroughly. The mixture should be stiff enough to support a wooden spoon. Place the mixture into a prepared square 20cm x 20cm (8" x 8") tin and bake in a slow oven for approximately 3 ½ - 4 hours. Allow the cake to cool in the tin.

Note: To ensure uniformity and depending upon the size it is suggested the raisins be snipped into 2 or 3 pieces, cherries into 4-6 pieces and almonds crosswise into 3-4 pieces.

Judge Note: The height of the cake should not exceed 5.7cm (57mm)

The Sydney Royal AgShows Young Woman of the Year Competition

Chief Steward: Jade Taylor (0477 725 417)

The Dorrigo and Guy Fawkes Agricultural Show Society invites young women between the ages of 18 and 25 years (before 1 May 2025) to enter the Dorrigo Young Woman of the Year, formally known as the showgirl competition.

We also encourage young women between the ages of 15 and 17 to enter our teen competition.

The Young Woman of the Year Competition seeks a young woman to represent Dorrigo and the Dorrigo Show. It is not a beauty pageant- the purpose of the competition is to identify ambassadors to promote Agricultural shows across New South Wales. The program is designed to develop regional young women, to benefit the individual, the local show society, and their communities.

Each Entrant will be assessed on her general knowledge, confidence, personality, ambition, life goals and deportment. All you need is to have a genuine interest in, and knowledge of, your local area and rural affairs.

This year's successful Entrant will have the opportunity to attend the Zone Final to be held in Barraba in February 2025. If successful at Zone level, she will represent Dorrigo in the State Competition at the Sydney Royal Show in 2024. Dorrigo women, Yvonne Berry in 1989 and Kate Woodward in 2001, both won at Sydney.

As part of the prize package, the Dorrigo Young Woman will receive a weekend long Personal Development Coaching Course, including travel and accommodation. This will be prior to the Zone judging and is invaluable in developing confidence in public speaking, deportment, social etiquette and personal presentation, among other skills. All Entrants receive a personal portfolio, a sash and a gift kindly sponsored by Dorrigo businesses, in appreciation of the Entrant's participation and desire to help continue a tradition that is over 50 years old.

The Young Woman of the Year and Teen Young Woman of the Year will be judged and announced at the Young Woman of the Year Ball prior to the show, which will be held on the 19th of October.

The Dorrigo Show Society also invites young women aged 6-14 to participate in the Junior Showgirl Competition which will be run on the Saturday morning of the show. This will be a great opportunity for younger girls to build their confidence and get involved in the Dorrigo Show. Participants are invited to enter in the following categories:

6-10 years (mini)

11-14 years (junior)

Meeting near the show office at the main pavilion at 10am on Saturday the 23rd of November 2024 for sign up with judging to follow.

This event is free to enter.

NATIONAL CATTLE HEALTH DECLARATION EXPLANATORY NOTES

OVERVIEW

The **Cattle Health Declaration** is a legal document. **Please complete accurately before signing.**

Cattle Health Declarations are a way for producers to provide information about the health status of the cattle they are selling. Buyers should ask vendors for a Declaration and use the information provided to determine the health risks associated with the animals on offer.

Some states/territories require testing or certification additional to that outlined in this document e.g. Johne's disease (JD) in WA and for Enzootic Bovine Leucosis (EBL) in Tasmania. Please check the entry requirements for any interstate movements at:

www.animalhealthaustralia.com.au/what-we-do/epidemic-disease/livestock-movements

The original of this form is to be attached to the National Vendor Declaration (NVD) form accompanying the cattle, if applicable. A duplicate remains with the vendor; it is recommended the vendor retains a copy of this declaration for seven (7) years.

QUESTIONS 3 & 4: BOVINE VIRAL DIARRHOEA VIRUS (PESTIVIRUS) TESTING

Persistently infected animals can be detected by conducting a pestivirus antigen test. This test only needs to be conducted once in an animal's life. Cattle that test positive in most cases are persistently infected animals. Pestivirus antibody testing may be done to check the pestivirus status of the herd. Dairy cattle may be tested through bulk milk testing. Contact your veterinarian for assistance. Producers who don't know the answer to these questions should tick the 'N' box.

QUESTION 5: JOHNE'S DISEASE TESTING

Note: JD is a notifiable disease, so it is important to answer these questions.

Check test – testing of 50 adult animals in the herd (or all eligible animals in a herd if less than 50 adult animals) biased to increase the probability of detecting infection, tested by (pooled) faecal culture or (pooled) HT-J faecal PCR. An ELISA test is available but is not recommended and also not accepted for entry of cattle to WA.

Sample test – screening of the adult herd or a large representative sample of the adult herd by an approved test (pooled) faecal culture or (pooled) HT-J faecal PCR. See note above for ELISA test.

Herd Environmental Culture (HEC) Check Test (for dairy cattle) – a test of a representative sample of faecal material from the yard (see JD in *Cattle Definitions & Guidelines* for details). Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools.

QUESTIONS 6 & 7: JOHNE'S DISEASE

Occurrence of JD refers to clinical disease in the herd or on the property(s). Clinical disease is an infected animal with chronic diarrhoea and weight-loss that does not respond to treatment.

The **Johne's Beef Assurance Score (J-BAS)** is a voluntary tool developed for JD risk profiling. Details are available at www.animalhealthaustralia.com.au/jd-cattle-tools. The J-BAS is an initial guide and purchasers should ask for more information about JD in the origin herd (see the JD in Cattle Biosecurity Checklist on the 'JD in cattle' webpage). The *National Farm Biosecurity Reference Manual - Grazing Livestock Production* provides a template to use for the property biosecurity plan. All plans should include the JD in Cattle Biosecurity Plan Checklist.

The **Johne's Disease Dairy Score (JDDS)** is a voluntary tool for JD risk profiling in dairy cattle. Information is available at www.dairyaustralia.com.au/bjd

Grazing of non-bovine species – Buyers of cattle from this consignment may consider the grazing of other JD-susceptible species (sheep, goats, alpacas) on the source property as important to their risk-management decisions. These buyers are entitled to seek information on how you have managed disease risks for all your livestock.

TREATMENTS & VACCINATIONS

Provide details on any cattle treatments in the last six (6) months and vaccinations within the last twelve (12) months.

Some manufacturers include more than one of the categories listed in the same vaccine, known as a combination vaccine. If you use a combination vaccine, each agent(s), as appropriate, should be detailed.

For vaccinations to be current, you must have followed the manufacturer's recommendation for vaccination. Typically, young animals or first time vaccinated animals need two (2) doses, followed by annual boosters. As variations to this general rule do occur (e.g. Silirum is given once only), you must use the manufacturer's recommendations. At the date the declaration is made and as a result of the vaccination(s) given, the animals are considered protected from the diseases marked as treated.

DECLARATION

This section must only be completed by the owner or person responsible for the husbandry of the cattle in the consignment.

For more information on what is fit to travel, please see *MLA's Is it fit to load?* at www.mla.com.au/isitfittolead.
